Minor cutting, trimming, or sewing of those major parts will not affect the determination of whether an apparel article is “knit-to-shape”;

(k) *Knit-to-shape components*. “Knit-to-shape,” when used with reference to textile components, means components that are knitted or crocheted from a yarn directly to a specific shape, that is, the shape or form of the component as it is used in the apparel article, containing at least one self-start edge. Minor attachments and minor embellishments (for example, appliques, beads, spangles, embroidery, and buttons) not appreciably affecting the identity of the good, and minor subassemblies (for example, collars, cuffs, plackets, and pockets), will not affect the determination of whether a good is “wholly assembled in Haiti”.
